Introduction

This conference is designed to canvas a variety of contemporary diabetes considerations of interest to personnel that provide care to patients with diabetes. Topics have appeal and applicability for providers in a variety of practice environments. Participants will learn strategies to help patients cope with impairments as a result of diabetes complications. This workshop will introduce participants to knowledge in integrating complementary and alternative therapy in patient education. Describe the economic, social and medical burden of Pre-Diabetes and interventions that can be made to address pre-diabetes. Participants will be able to use cultural competency to reduce cultural barriers to effective diabetes management.

Target audience

This activity is intended for diabetes educators, registered nurses, registered dietitians, and pharmacists.

Location

The Conference Center at the Maritime Institute
692 Maritime Boulevard Linthicum Heights, MD
21090-1952
